an exceptionally well known social psychologist offers the most definitive work to date on life cycle sociology appropriate as a text or supplement for courses on socialization social psychology and aging foundations of modern sociology series

this introductory book provides an insight into sociological life course research and informs about its theoretical assumptions analytical concepts and main results

sociological life course research like biographical research has developed into an independent and fruitful field of research since the end of the 1960s it is true that half a century earlier in their famous study of the polish peasant in europe and america 1918 20 thomas and znaniecki had already used life records to examine the connection between social change social structures and the life histories of individuals however such a research perspective was supplanted by other methodological conceptual approaches to empirical social research for over fifty years it was not until the 1960s that sociological interest in life course and biographical theoretical issues reawakened today life course research is considered one of the most important conceptual innovations in sociology in recent decades the content the life course as a social construction what is life course research the life course as an institution collective life courses generations cohorts and social change structures of the life course life course research a conceptual perspective life course research quo vadis the author prof dr matthias wingens teaches sociology at the university of bremen bremen international graduate school of social sciences bigsss

mortimer sociology u of minnesota and shanahan sociology u of north carolina at chapel hill present a handbook that overviews the theoretical perspectives concepts and methodological approaches that animate life course studies in social psychology thirty four chapters are organized into sections that discuss variability in life course across historical and cross national settings normative age grading of the life course as reflective of social structures the way life courses reflect social institutions and individual level processes of motivation in the life course annotation c 2003 book news inc portland or booknews com

current debates in life course studies increasingly reference theories of individualization standardization and differentiation in the structure of the life course this volume brings together leading scholars from a variety of fields to assess the theoretical underpinnings the empirical evidence and the implications of existing arguments the contributions include comparative historical work demographic analysis and detailed survey research the topics covered include historical cross cultural and racioethnic variation in the transition to adulthood the school to work transition educational careers retirement activity characteristics over the life span and the life course context of psychological well being the various contributions expand our understanding of the contemporary life course and its implications the authors offer innovative theoretical and methodological approaches that demonstrate the utility of holistic approaches to conceptualizing the life course and understanding its implications for modern society

this volume engages the interface between the development of human lives and social relational networks it focuses on the integration of two subfields of sociology social science the life course and social networks research practitioners studying social networks typically focus on social structure or social organization ignoring the complex lives of the people in those networks at the same time life course researchers tend to focus on individual lives without necessarily studying the contexts of social relationships in which lives are embedded and linked to one another through social networks these patterns are changing and this book creates an audience of researchers who will better integrate the two subfields it covers the role of social networks across the life span from childhood and adolescence to midlife through old age

as our aging population grows ever larger it is increasingly important to understand how adults age and what we can do to provide up to date care to ensure their well being as an integral part of society leslie morgan and suzanne kunkel understand that this phenomenon is about much more than just the physical or biological aspects of growing older and have put together a comprehensive text on the impact of society and sociology on the aging process use this text to explore the diversity of the aging population and dispel the major stereotypes surrounding the elderly learn about aging through all the layers of social context from family life to politics and economics and through this approach come to see how aging is more than just an individual process it is a process that effects the direction of our society as a whole for the student sites of interest and key terms defined at the end of each chapter real life stories and essays on love sex music medicine and crime for the professor assignment ready reading in a one chapter a week format questions for discussion and review at each chapter end applying theory sections place the lesson of each chapter in a clear real world setting instructor s guide now available an instructor s manual for this textbook is available for those professors who have adopted aging society and the life course third edition and can verify a bookstore order of 7 or more copies please email our marketing department at [marketing.springerpub.com](mailto:marketing.springerpub.com) if you have adopted this text as you will need a password to download the guide please provide the name and telephone number of the bookstore that ordered the textbooks a print version of the instructor s manual is also availabl

rapid and far reaching social transformation in western society over the last few decades has prompted considerable interest in the life course this accessible and informative text provides a substantive overview to the topic combining contemporary and more traditional perspectives tracing the different stages of the life course through infancy and youth to old age and dying the book considers what is distinct about a sociological approach to the life course and explores recent debates and changing theoretical perspectives in the context of biological psychological and social influences

understanding the life course provides a uniquely comprehensive guide to the entire life course from an interdisciplinary perspective combining important insights from sociology and psychology the book presents the concepts theoretical underpinnings in an accessible style supported by real life examples from birth and becoming a parent to death and grieving for the loss of others lorraine green explores all stages of the life course through key research studies and theories in conjunction with issues of social inequality and critical examination of lay viewpoints she highlights the many ways the life course can be interpreted including themes of linearity and multidirectionality continuity and discontinuity and the interplay between nature and nurture the second edition updates key data and includes additional material on topics such as new technologies changing markers of transitions to adulthood active ageing resilience and neuropsychology this comprehensive approach will continue to be essential reading for students on vocational programmes such as social work and nursing and will provide thought provoking insight into the wider contexts of the life course for students of psychology and sociology

a life course approach to mental disorders examines the causes and consequences of a wide range of mental disorders throughout life from the peri natal period through old age

praise for the first edition this book is exemplary in amassing demographic policy and sociopsychological data from around the world the content of the book is rich with current information seldom accumulated into one source i recommend this volume to gerontologists aging studies undergraduate and graduate students demographers and global studies scholars dr carol a gosselink psyc critiques written by leading scholars this esteemed text on global aging is distinguished by its unique perspective on universal similarities and sociocultural differences across nations fully revised updated and reorganized the second edition presents comprehensive coverage of major topics in social gerontology and expands its treatment of health behavior health care families caregiving older workers and retirement it delivers new information on living environments religious beliefs and practices environmental threats cross cultural views of dementia ageism in advertising age friendly communities global immigration and cultural assimilation and end of life caregiving the second edition also offers additional case studies first person narratives and focused essays to enhance core material and a greater number of non western contributors the topical essays reflect changing mores and current issues affecting societies and the aging experience discussion questions conclude each chapter and an instructor s manual and powerpoint slides are available to instructors print version of the book includes free searchable digital access to entire contents new to the second edition expanded content on health beliefs and health behavior religious belief and practice environmental threats housing and living environments physical security consumer control of health care family life and more additional topics on global immigration and cultural assimilation age portrayals in advertising voluntarism and the use of social media in caregiving abundant new and expanded essays new case studies and first person narratives many more non western contributors key features delivers comprehensive coverage of major topics in gerontology uses a unique comparative cross national perspective authored by world renowned aging scholars includes case studies essays personal narratives to enliven core information provides the most comprehensive demographic data on aging around the world

adult learning matters there is now widespread agreement that modern countries depend on the creativity skills and knowledge of the entire population for their prosperity many people talk of our future well being in terms of a knowledge economy or a learning society in which every person s ability to develop new capabilities will provide them with resources that will help them and the wider community to adapt and thrive while in theory this makes lifelong learning into an exciting prospect in practice this broad agenda is often reduced to a narrowly economic conception this book reports on one of the largest research projects into lifelong learning conducted in recent years through over 500 in depth interviews with a cohort of about 120 adults who were followed for three years the learning lives project has built up a detailed understanding of what learning means and does in the lives of adults the project has generated insights in how learning has changed over time and across generations what the connections are with the changing world of work what differences learning makes for life chances how we can learn from life and for life and how people s prospects of learning can be improved combining life history and life course research with analysis of longitudinal survey data this book provides important insights into the learning biographies and trajectories of adults the book shows that learning means and does much more in people s lives than is often acknowledged by current education policy and politics in doing so it is an invaluable resource for anyone with an interest in the role and potential of learning through the lifecourse

aging the life course social cultural contexts provides an accessible up to date introduction to the study of aging and the life course from a distinctly sociological

perspective it explores the sociocultural dimensions of aging while encouraging critical thinking about the diversity of aging experiences societal attitudes toward older adults the politics and economics of growing old and end of life resources throughout the text deborah lowry emphasizes the relevance of the material for working with older populations understanding social policy and policy debates improving communities relating to others and understanding ourselves organized into four major sections part i introduces students to fundamental demographic sociological and life course concepts part ii explores the experiences and conditions of aging especially in particular groups and part iii presents current research on older adults engagement in work family social networks and sex finally part iv addresses themes of aging and social change
